

GoToSocial frontends

Here are some of your frontend options for using a GoToSocial node. This isn't an exhaustive list- many Mastodon clients are also compatible with GoToSocial.

Phanpy

<https://phanpy.social/>

A frontend with a large number of features. [See Phanpy's readme for an introduction.](#)

Enafore / Semaphore

<https://enafore.social/> and <https://semaphore.social/> are lightweight clients based on the Pinafore project which was retired in 2023.
